

CATHARSIS SERIES

Catharsis

This series is very different to the rest of my work and the reason is experimentation and adaptation. At the beginning of the pandemic of Covid19, as a creative, I entered a period of shock and uncertainty... Everybody is affected and if you have a conscience, you feel compelled to react!

I entered a creative block. I felt lost. I was in fear...

As artists, we spend many hours in our studios. We are familiar with the concept of isolation. But at the same time, we also fuel our creativity in our outings away from the studio and by experiencing life and our surroundings to the fullest.

My heart was pounding hard, ready to explode with the necessity to express myself. I was ready to tell the world that I was alive and full of energy, love, plans and so much to do and say... I was bursting with creativity!

And that is how "Catharsis" started...

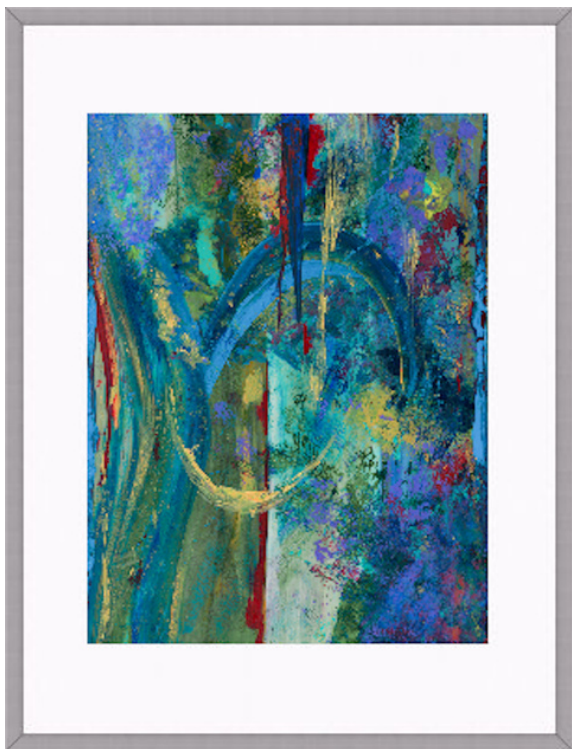

Please note that, the staged photos in this catalogue are only for reference and are not into exact scale.

The smallest artworks are framed with single mat, and medium and large sizes with double mat. in a metal frame. Inspired by the Bauhaus movement of the 1900s with a brushed pewter finish, and Gallery Non Glare Acrylite.

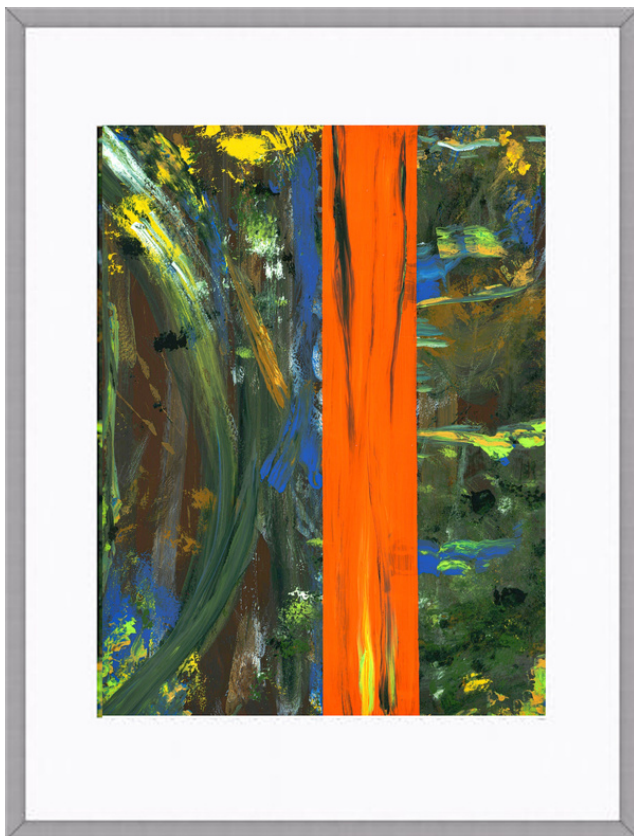

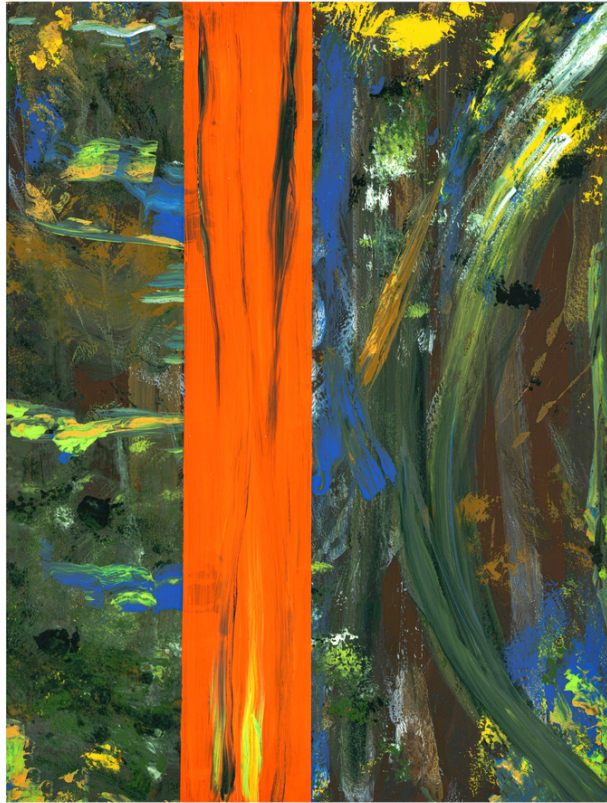

Signed on back and front of mat.

Ready to hang
